Policy for Determining Construction Valuation for Change-in-Use Permits

Purpose:

The purpose of this policy is to clarify the building permit and development fee calculation of a tenant improvement permit that contains a Change-in-Use (CIU) to the occupancy of a tenant space.

Policy:

Change-in-Use project fees will be calculated based on the following guidelines:

A. Building Permit Fees (building permit, plan review, zone check, Green Building, SMIP, etc.)

Fees for these types of permits are based on one of two methods:

1. An applicant may provide a signed, valid construction contract that shows all work to be done to achieve the scope of work. The construction contract must include all work being proposed to complete the project, and a final dollar figure for the contract.

OR

2. Using the Building Valuation Table, determine the New Use “per square foot” cost (“**N**”) – Existing Use “per square foot” cost (“**E**”) x square footage of space by use (“**SF**”) = Construction Valuation (“**CV**”) used for fee calculation

$$(N - E) \times SF = CV$$

For those projects where the New Use “per square foot” cost is less than the Existing Use “per square foot” cost, or where the construction contract valuation is *higher* than the calculated Change-in-Use Construction Valuation, building permit fees will be determined using the provided construction contract.

B. Development Impact Fees:

Change-in-use factors are potentially applicable to all Development Impact Fees. These fees must be reviewed and adjusted as necessary by the following working groups:

- Multi-Modal Impact Fee - Collected by the Building & Safety Division
- Affordable Housing Fee - Collected by the Building & Safety Division
- Park Impact Fee - Collected by the Building & Safety Division
- Fire Facility Fee - Collected by the Building & Safety Division for Sac Metro Fire
- STA (Measure A) Fee - Collected by the Building & Safety Division
- Drainage Fee – Sacramento County Department of Water Resources
- Sewer Fee – Sacramento Regional County Sanitation District, Sacramento Area Sewer District
- School District Development Impact Fee – San Juan School District

No reduction, waiver or change to any fee may occur without the written direction of the agency responsible for the fee.
