Cash in-Lieu of Medical Insurance

If an employee uses the City's health insurance benefit, then no cash-out is provided. If an employee has a qualifying group health plan coverage through a spouse, domestic partner or alternative retirement, an employee can receive a taxable cash-out in the amount of $600 per month or add this amount to a deferred compensation plan. Employees that qualify for the cash-out will also receive an additional $100 per month towards either a deferred compensation plan or a health reimbursement account (HRA). The employee must provide proof of alternative coverage and must self-attest annually to receive the cash-out benefit.

Part-time benefited employees will receive the cash-out based on their benefit tier level of 50% or 75%. The employee must have minimum essential coverage (other than coverage in the individual market and other than individual coverage through Covered California) for all individuals whom they expect to claim as a deduction as a personal exemption for 2026. Employees enrolled in individual coverage, such as Medi-Cal, and Covered California, are not eligible to receive the cash in-lieu of medical insurance, even if the coverage provides minimum value.

Retiree Medical Contribution

The City contracts with CalPERS for medical coverage. As part of this contract, employers are required to contribute towards retiree medical. The City's 2026 monthly contribution towards retiree medical is $162.00.

The employee's spouse and dependents' premiums are based upon the employee's tier system. Dental benefit features include basic, preventative, and major dental care. There is a calendar year maximum of $1,500. The dental program also covers up to $1,500 per child and adult for orthodontics services as a one-time contribution. Children are eligible for dental coverage up to age 26.

Employees are eligible to elect up to $3,400 annually for healthcare reimbursement and $7,500 annually for dependent care. Election amount(s) will be deducted over 24 pay periods, or the number of pay periods remaining in the calendar year after the employee is hired.

Life Insurance
The City currently contracts with The Standard Insurance for life insurance benefits for our employees. Basic Life Insurance/AD&D is effective on the first day of the month following the date of hire and upon the completion of the enrollment process. The City pays the premium for Basic Life and Accidental Death and Dismemberment (AD&D) – $100,000 for management employees and $50,000 for all other benefitted employees.

Age Reductions – Under this plan, coverage reduces 35% at age 65, and 50% at age 70. Spouse/Registered Domestic Partner coverage will be reduced as the employee ages by 35% at age 65 and 50% at age 70.

Employees can purchase additional life insurance via a payroll deduction through the Additional Life Insurance program for themselves, their spouse/domestic partner, and children. This is a portable benefit. Employees have a "guaranteed" amount of additional life insurance coverage that can be purchased without any review by underwriting if you apply within 31 days of becoming eligible. Below is a chart showing these amounts:

Guaranteed Amount	Maximum Purchase
Employee Only - $250,000	Employee – The lesser of $500,000, not to exceed 7 times employee's annual earnings

New employees are enrolled into the Long-Term Disability program the first day of the month following the date of hire. The City pays for the cost of coverage. Coverage includes 60% of monthly earnings to a maximum benefit of $12,750 per month; there is a 30-day waiting period; benefits are paid for the duration of a qualifying disability. Part-time, regular employees working at least 20 hours per week qualify for this benefit. Since the City pays the premium on behalf of the employee, if an employee were to receive a benefit – the amount received would be taxable.
